

Where Experience Meets Intelligence

From Legacy to Intelligence

*Empowering businesses through **AI innovation, automation, and digital transformation** — built on **40 years of Khalifa Computer Group** excellence.*

At **Diginovia**, we transform decades of expertise into intelligent, future-ready solutions. As a proud member of **Khalifa Computer Group (est. 1984)**, we combine the legacy of innovation with the power of **AI, automation, and assistive technologies** — delivering measurable results across industries, institutions, and communities worldwide.

The Heritage (KCG)

A Legacy of Leadership and Innovation

Since 1984, Khalifa Computer Group has led digital transformation in the region — pioneering software, applications, and assistive technologies that shaped industries and communities alike.

With over **800 clients**, **30+ projects**, **20+ awards**, and a presence in **12+ countries**

The Evolution (Diginovia)

The Next Chapter of Intelligence

Diginovia inherits this rich experience, evolving it into the age of AI, automation, and smart technologies.

Building on KCG's systems, partnerships, and talent, **Diginovia** delivers intelligent, adaptive, and scalable digital solutions for businesses, communities, and institutions.

KCG's journey has inspired the next generation of intelligent innovation.

About Diginovia

The New Generation of Digital Transformation

Who We Are

Diginovia is an innovation-driven technology company specialized in **AI agents**, **workflow automation**, **assistive technologies**, and **smart software solutions**.

As part of **Khalifa Computer Group**, Diginovia inherits decades of expertise, proven systems, and a trusted client base — evolving them into **next-generation intelligent platforms** for digital transformation.

“Empowering organizations through intelligence, automation, and creativity.”

About Diginovia

The New Generation of Digital Transformation

Vision

To lead the transformation of businesses and communities through intelligent, human-centered technology.

Mission

To design and deploy AI-powered digital solutions that enhance efficiency, accessibility, and engagement across industries — connecting innovation with real-world impact.

About Diginovia
